# Spine Rehabilitation in Brooklyn

Painful back? We know how frustrating it is to have back pain prevent you from performing even the most routine tasks. You don't have to live in misery any longer.

Our spinal rehabilitation is designed with one goal in mind — to safely restore your mobility pain free and independence. Physical therapy of the spine helps you to regain your full range of motion, flexibility, and strength. Lower back pain therapy can improve your quality of life and teach you preventative techniques to avoid future aggravation and injury.

Let our experienced and attentive staff help you with spine rehabilitation for:

- Cervical and Lumbar Pain
- Radiculopathys
- Sacroiliac Joint Pain (SI Joint Pain)
- Piriformis Syndrome
- Herniated Discs
- Sciatica/Stenosis
- Laminectomy, Fusion

### Schedule Your Spine Rehabilitation Appointment

Contact our office today to make an appointment to discuss spine rehabilitation and whether spine physical therapy may be right for you. Please call **(718) 855-1543**, or use the appointment request form on this page.
